Summary	One of the images is not displayed correctly
Step to Reproduce	Environment : https://www.saucedemo.com/inventory.html Platform : web Release version : - Test data : visual_user Step to repro : 1. Open web demo Swag Labs 2. Login with username visual_user 3. Check product image in page

Actual Result	some product images are not displayed correctly, one of which is an image of an animal

Expected Result	Product image shall be displayed properly

3. [QA] Bug in the reset app state menu with username standard_user

Summary	Use of the reset app state menu is not appropriate

Step to Reproduce	Environtment : https://www.saucedemo.com/inventory.html Platform : web Release version : - Test data : standard_user Step to repro : 1. Open web demo Swag Labs 2. Login with username standard_user 3. Click the "reset app state" menu in the header menu
Actual Result	The user successfully resets the product in the cart but the add to cart button on the product does not return to its original state
Expected Result	The reset app state menu can be used perfectly

4. [QA] Bug Users can make payments without entering the product

Summary	On the step one checkout page, users can checkout without a product
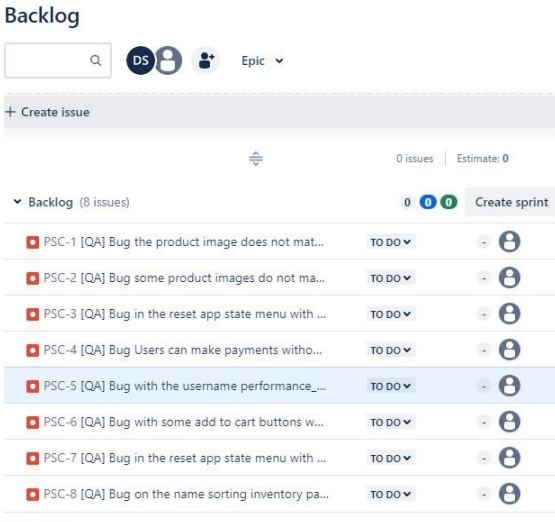

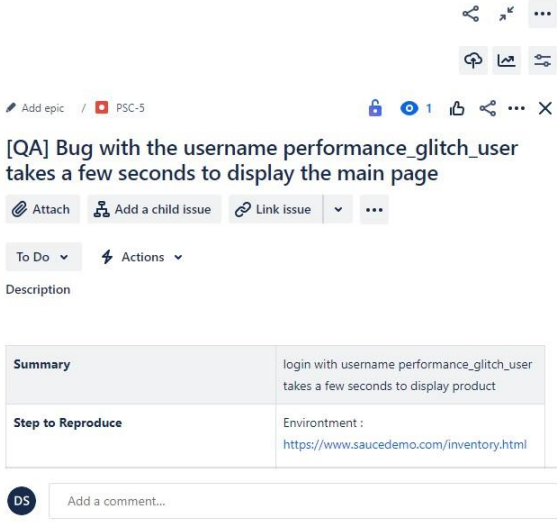

Step to Reproduce	Environment :
	https://www.saucedemo.com/checkout-step-two.html
	Platform : web
	Release version : -
	Test data : user : standard_user
	Step to repro :
	1. Open web demo Swag Labs
	2. Login with username standard_user
	3. klik ikon keranjang
	4. klik checkout

Actual Result	The user is successfully directed to the step one checkout page but the user can also checkout without the product

Expected Result	Users should not be able to checkout when there are no products in the cart and give a notification "sorry, there must be a product in the cart"

5. **[QA] Bug with the username performance_glitch_user takes a few seconds to display the main page**

Summary	login with username performance_glitch_user takes a few seconds to display product

Step to Reproduce	Environtment : https://www.saucedemo.com/inventory.html Platform : web Release version : - Test data : performance_glitch_user Step to repro : 1. Open web demo Swag Labs 2. Login with username performance_glitch_user 3. Click login button
Actual Result	The user is successfully directed to the step one checkout page but the user can also checkout without the product
Expected Result	Login with username performance_glitch_user should not take a long time to open the product page.

6. [QA] Bug with some add to cart buttons when pressed
